To Whom It May Concern:

Re: Garth Futch – Letter of Recommendation

I have had the pleasure of knowing Garth Futch (AKA *Futch*) for over ten years and I have worked with him for seven. In that time I have seen him grow and develop as an instructor and manager with a commitment to excellence for all stakeholders.

Futch and I worked together at Nimbus School of Recording & Media where I was the Campus Director for five years.

As an instructor, Futch was beloved by his students. The dedication he showed to their learning was returned in the respect his students held for him. He has always shown a determination to learn and develop his own skills to better himself and his students. This commitment to learning carries on in his former students, many of whom have become mentors and lifelong learners themselves.

In his role as Curriculum Development Manager, Futch showed a tenacious effort to bring projects to completion, on or under budget, while making sure the student experience was top priority. Futch is a creative thinker and problem solver who is always willing to step out of the comfort zone to find solutions.

Futch would add value to any company, and I recommend him for any future endeavor he chooses to pursue. Please feel free to contact me should you have any questions or require further information.

Sincerely,
